IAS Named to SupplyChainBrain's Select List of 2014 Great Supply Chain Partners

Chosen by SupplyChainBrain for Robust Intermodal Transportation Solutions

Compare Brokers

OAKLAND, CA-- (Marketwired - Jul 22, 2014) - International Asset Systems® (IAS), the leader in cloud-based solutions for intermodal transportation, announces being

named to *SupplyChainBrain* magazine's select list of 2014 Great Supply Chain Partners. IAS was chosen for its powerful intermodal transportation network that fosters collaboration among operators and their trading partners and its robust intermodal solutions that deliver visibility into operations, improve asset utilization, and lower transportation and operational costs.

"IAS is honored to win this prestigious award for our cloud-based intermodal solutions that leverage our collaborative network to drive greater efficiencies and lower costs within our clients' supply chains," said Paul Crinks, CEO, International Asset Systems. "The intermodal industry is poised to benefit from our world-class solutions to help them capture event data, manage chassis, tender work orders and optimize assets to improve customer service, make sense of transactional data for better
