

Inter

ASSET

**IAS** builds powerful logistics and transportation solutions upon a secure, scalable, configurable, reliable platform. Get IAS Connected and gain full visibility to your global network. Let's give new meaning to connectivity.

A platform to connect you – the foundation for success

# Inter ASSET

Delivering the benefits of a high-quality service in the cloud requires a clear vision, innovative software design, high-quality infrastructure, and zealous execution. IAS' goal is to exceed your expectations through continuous improvements to applications and services. This unwavering dedication to both infrastructure and customer experience allows us to provide the full benefits of cloud computing.

Architected, designed and built to the highest standards, InterAsset delivers a powerful and extensible technology platform for all IAS solutions. At the heart of the InterAsset platform is a powerful database that securely records information on the multitude of registered users, geographies, and assets as well as the tremendous number of events processed within the IAS network on a daily basis. InterAsset is the result of a unique combination of proven, best-in-class technologies paired with the industry expertise IAS has gained in providing business solutions to the global intermodal community for over a decade.

## Benefits

- View data from all your connected trading partners with a secure one-to-many connection
- Get connected quickly through a proven, efficient onboarding process
- Gain confidence in your data through validation, compliance rules, and transaction audits
- Rely on an industrial strength stack: best-in-class hardware and software components
- Be prepared for future growth with a scalable and extensible infrastructure
- Work how you prefer with configurable workflows, business rules, role-based permissions, reporting, and validations
- Share information easily with any-to-any EDI file mapping (XML, ANSI, EDIFACT, CSV)
- Manage trading partners in your network more easily with alerts and notifications
- Leverage the cloud for cost-effective delivery of information
- Enjoy peace of mind with 24x7 technical support and 99.9% service availability

## IAS Connected

Technologies advance, new requirements emerge, the push for continuous innovation is ever present, and the care-and-feeding of a best-in-class system is an unending endeavor. IAS works tirelessly to meet those challenges because we fully believe that commitment to the platform delivers our most valuable capability connectivity.

Network connectivity means not only can you more easily work with your partners, but also you can rest assured that your goals and activities are aligned. Once you and your partners are IAS Connected, you are set up for faster, simplified communication, less administration activity, and more visibility to real-time information.

Connectivity isn't just a buzzword. When IAS says connectivity it means a host of real business benefits:

- **Value** - as the IAS Connected network expands, it becomes easier and quicker for new members to join as their required partners are likely already connected
- **Common ground** - IAS translates the information from disparate systems so you can work with any partner of any technological sophistication in any location
- **Accessibility** - IAS adapts to suit your situation whether you integrate with your current systems or work through an internet-ready device
- **Security** - IAS makes sure your data is safe and only designated people can view and act on it at appropriate times
- **Visibility** - IAS brings clarity to all your events and data so you have what you need, when you need it

You can see why thousands of intermodal participants choose IAS, the InterAsset platform, and our solution portfolio.

IAS provides greater visibility, control, and optimization of assets through a collaborative platform uniting the global trade, transportation, and logistics industry. IAS solutions, quickly implemented and immediately beneficial, can be operated as standalone web-native applications or integrated into existing transportation management systems. The IAS solution portfolio and InterAsset platform create a more valuable network by converting the entire community's input into actionable information, enabling clients to interact seamlessly, optimizing the inland intermodal process, and lowering the cost of routine business transactions. IAS connects thousands of trading partners including leading ocean carriers, motor carriers, railroads, logistics providers, equipment lessors, repair depots, and terminals, and enables them to increase revenue, margin, and service. The IAS team of transportation experts is dedicated to providing world-class solutions and combines personal, 24x7 service worldwide with one of the intermodal industry's most comprehensive service level agreements.
