# INTERNATIONAL ASSET SYSTEMS

More Than  
Intuition

**VISIBILITY** a window into your data, processes, and assets.

More Than  
Opportunity

**OPTIMIZATION** the most efficient supply chain movement for optimal operations.

More Than  
Software

**INNOVATION** enabling your people and assets to create additional value.

More Than  
Connectivity

**COLLABORATION** a platform to unite you and your network to a common goal.

More Than  
Vendors

**EXPERTISE** partnering with the best technologists and transportation people.

# IAS

## INTERNATIONAL ASSET SYSTEMS

International Asset Systems (IAS) provides solutions to the world's largest intermodal network, servicing leading ocean carriers, equipment lessors, logistics providers, freight forwarders, manufacturers, warehouse, motor carriers, repair facilities, terminals, depots, and rail carriers around the world. IAS helps clients increase profits by achieving greater visibility, increasing booking fulfillment, and reducing equipment, transportation and operational costs.

IAS cloud solutions reside on InterAsset, a powerful operating platform that enables customers to leverage the underlying data to gain visibility to equipment status, use powerful collaboration tools to optimize utilization and reduce operating costs, and share information to improve supply chain customer service. Each solution is based on industry best practices and can be implemented quickly, enabling clients to realize significant benefits immediately while avoiding costly investments in infrastructure, technology and resources. With a transaction-based fee structure, ongoing around the clock support, and products that exceed expectations, you are guaranteed satisfaction.

### Solutions

- **InterAsset** powers all IAS solutions with a secure, configurable platform that connects the intermodal community and makes implementation fast and affordable.
- **IAS Equipment** automates the maintenance and repair cycle to significantly lower costs, improve M&R decision-making, and maximize equipment utilization.
- **IAS Dispatch** streamlines work order management, improves performance of inland transportation, and provides visibility, control and optimization of the last mile.
- **IAS Chassis** connects chassis owners and users, improves communication and visibility around equipment usage and charges, and sets a higher standard for customer service.

## Service that exceeds expectations and guarantees success

IAS has developed its reputation as an industry leader by providing personal service and support to a global community of connected clients and their intermodal partners. IAS is committed to keeping your business running smoothly with a 99.9% uptime service level agreement, one of the transportation industry's highest system availability guarantees. To ensure your confidence and peace of mind, IAS offers comprehensive 24/7/365 local language support and a rewarding user experience.

IAS solutions are intuitive so you can get started quickly. And most training sessions can move you to advanced functionality in less than one hour. Training for you and your partners is conveniently available using your own computer with interactive webinars that allow everyone to easily learn and experience the tasks they will perform. Upon request, IAS can also provide onsite client training. Helpful documentation for each IAS service is available electronically and provides full details on the use of each application, including easy-to-follow, step-by-step instructions and screen diagrams.

Whether you need assistance with integration, implementation, or ongoing technical support, representatives are always available.

IAS provides greater visibility, control, and optimization of assets through a collaborative platform uniting the global trade, transportation, and logistics industry. IAS solutions, quickly implemented and immediately beneficial, can be operated as standalone web-native applications or integrated into existing transportation management systems. The IAS solution portfolio and InterAsset platform create a more valuable network by converting the entire community's input into actionable information, enabling clients to interact seamlessly, optimizing the inland intermodal process, and lowering the cost of routine business transactions. IAS connects thousands of trading partners including leading ocean carriers, motor carriers, railroads, logistics providers, equipment lessors, repair depots, and terminals, and enables them to increase revenue, margin, and service. The IAS team of transportation experts is dedicated to providing world-class solutions and combines personal, 24/7 service worldwide with one of the intermodal industry's most comprehensive service level agreements.
